

# Flight2Light 2022

**Please join us on**

**Friday 09 December 8–10PM**

Perry Lakes Dr, Western Australian Ecology  
Centre, Bold Park, Perth WA

## **What to expect**

Come along to Bush Blitz's Flight2Light 2022 event for Girl Guides. You will learn about the impacts of light pollution, hear from entomologists (insect specialists), get involved in fun hands-on activities, and investigate how you can help to earn a Flight2Light badge!

## **What to bring**

- Headtorch or handheld torch
- A hat (activities will require a hat)
- Covered shoes
- Water bottle

## **How to register**

Please register via the WA Girl Guides website:

## Who are we?

Bush Blitz is Australia's largest nature discovery program – a unique multi million dollar partnership between the Australian Government through Parks Australia and the Australian Biological Resources Study, BHP and Earthwatch Australia to document plants and animals across Australia.

Since the program began in 2010 Bush Blitz has discovered more than 1,800 new species and has added thousands of species records to what is already known, increasing our scientific knowledge to help us protect our biodiversity for generations to come.

## What is Flight 2 Light?

Flight 2 Light is an education and outreach program highlighting the impacts of light pollution on wildlife and ecosystems, and what we can do to help.

In 2022 Bush Blitz have partnered with Girl Guides Australia to deliver this program to Guides across Australia. The event will include a series of hands on activities lead by Australia's leading scientific experts from WA Museum, ABRS and CSIRO.
